It's time to get the holiday season started a couple weeks early with the release of Cas Haley's 5-song EP, *Gifts To Give*. Built around an original Christmas tune that Cas wrote this past summer and fleshed out with four fantastic arrangements of modern Christmas classics, it's a perfect little record to have around the house this season, and maybe even stuff some stockings with.

"Iconic Christmas classics are made personal by Cas' inherent singing abilities and warm guitar strumming. The music is charming, sweet, and carefree without straying too far from the original compositions." - Inside World Music

"...delightfully offbeat and spreads some holiday cheer." - Midwest Record
